EDUCATION

Bachelor of Technology in Computer Science and Engineering (B.Tech)

The Neotia University (2019 - 2023)

CGPA – 9.03

TECHNICAL SKILLS

- **Backend:** Node.js, Express.js, RESTful APIs
- **Mobile App Development:** React Native (Navigation, Native Screen ,WebView, Firebase Analytics, Google Ad Integration ,Comscore Analytics)
- **Frontend:** React Native, React.js, JavaScript, HTML, CSS, Next.js
- **Databases:** MySQL (basic)
- **Languages:** JavaScript , SQL
- **Tools & Technologies:** Git, GitHub, VS Code, Postman, Android Studio,

EXPERIENCE

Software Engineer in DCG Data-Core Systems India Pvt Ltd , Kolkata (2023 – PRESENT)

Experienced software developer with 2 years of hands-on experience in backend and mobile application development. Specializing in building robust server-side applications using Node.js and creating cross-platform mobile apps for Android and iOS using React Native. Strong focus on crafting seamless, high-performance mobile user experiences. Skilled in designing scalable backend systems, integrating APIs. Strong problem-solving skills and a focus on delivering high-performance, user-centric solutions..

PROJECTS

Anandabazar Patrika (আনন্দবাজার পত্রিকা) - [Android](#) | [IOS](#)

Developed a React Native-based news application for Anandabazar Patrika. The app allows users to read articles, view multimedia content, and stay updated with the latest news. It includes features such as Google, phone, and email login, push notifications, deep linking, and content sharing. The app also supports subscription management, saved articles, and an enhanced article reading experience with WebView and image pinch-to-zoom. Contributed significantly to the mobile development process, ensuring a seamless and engaging user experience.

School Management App

Developed a comprehensive school management app using React Native for the frontend, Node.js for the backend, and MySQL for the database. The app allows students to view assignments, profiles, attendance, and other details. Teachers can manage attendance, assign homework, and access their profiles. Contributed to creating an efficient, user-friendly interface, ensuring smooth interaction for both students and teachers.

Exam Management Module for School Management System

Specialized in the backend development of the Exam Management Module within the School Management System using Node.js and MySQL. Developed RESTful APIs to handle exam creation, mark assignment, and administrative operations, ensuring secure and efficient data processing. Focused on building a scalable and maintainable backend architecture to support smooth functionality for educators. The project utilized Node.js, MySQL, and Next.js for a comprehensive solution.

Insurance & Document Services App

Developed a comprehensive school management app using React Native, Node.js, MySQL. The app allows students to view assignments, profiles, attendance, and other details. The app enables users to request services such as insurance applications, ITR filing, and PAN-Aadhaar update requests. Companies receive and manage these service requests through the system. Contributed to a smooth, secure, and user-friendly service request experience.
